Fictional application, for training only.

Personal Statement

I am a student in Biology and I am applying to the Student Opportunity Fund for one purpose: present a poster at a regional undergraduate research conference. This opportunity connects directly to what I want to do after graduation, and I could not cover the full cost on my own this year.

Over the past year I have taken on more responsibility in my program, including helping newer students and working part time on campus. I have planned the costs carefully and kept them as low as I can, as the budget shows.

If I receive an award, I will share what I learn with my department, and I will submit the short report the fund asks for within a month of finishing.

Student: APP-001

Program: Biology, BS

Issued by the Registrar's office, October 2026. Unofficial copy.

Term	Course	Credits	Grade
Fall 2024	General Biology I	3	A
Fall 2024	General Biology II	3	A
Spring 2025	Cell Biology	3	B
Spring 2025	Genetics	4	A
Fall 2025	Ecology	3	A
Fall 2025	Organic Chemistry I	4	A
Spring 2026	Statistics	3	A-
Spring 2026	Microbiology	3	A

Cumulative GPA: 3.53

Academic standing: Good standing

Reference 1

I am pleased to recommend applicant APP-001 for the Student Opportunity Fund. I have known the applicant for about two years, as their instructor.

The applicant is reliable, prepares carefully and asks good questions. Their work this year has been among the strongest in the group, and they have been generous with their time in helping others.

The activity described in this application fits their goals well, and I expect they will make good use of it. I recommend them without reservation.
