Personal Statement

I am a student in Elementary Education and I am applying to the Student Opportunity Fund for one purpose: classroom materials for a student-teaching placement. This opportunity connects directly to what I want to do after graduation, and I could not cover the full cost on my own this year.

Over the past year I have taken on more responsibility in my program, including helping newer students and working part time on campus. I have planned the costs carefully and kept them as low as I can, as the budget shows.

If I receive an award, I will share what I learn with my department, and I will submit the short report the fund asks for within a month of finishing.

Transcript

I have requested my transcript from the Registrar's office and it will be sent to you separately next week. I'm sorry for the delay.
