Personal Statement

I am a student in Graphic Design and I am applying to the Student Opportunity Fund for one purpose: portfolio printing and travel to a design review. This opportunity connects directly to what I want to do after graduation, and I could not cover the full cost on my own this year.

Over the past year I have taken on more responsibility in my program, including helping newer students and working part time on campus. I have planned the costs carefully and kept them as low as I can, as the budget shows.

If I receive an award, I will share what I learn with my department, and I will submit the short report the fund asks for within a month of finishing.

Reference 1

I am pleased to recommend applicant APP-010 for the Student Opportunity Fund. I have known the applicant for about two years, as their supervisor.

I have watched the applicant take on more responsibility each semester. Other students go to them for help, and they explain things patiently and clearly.

I am confident the award would be well used, and I am happy to answer any questions.

Reference 2

I am pleased to recommend applicant APP-010 for the Student Opportunity Fund. I have known the applicant for about two years, as their supervisor.

In my course the applicant stood out for steady, careful work rather than last-minute effort. Their written work improved a great deal over the year, and they take feedback well.

I think this opportunity is a natural next step for them, and I support the application strongly.
