Fictional application, for training only.

Personal Statement

I am a student in Psychology and I am applying to the Student Opportunity Fund for one purpose: present a paper at a state psychology conference. This opportunity connects directly to what I want to do after graduation, and I could not cover the full cost on my own this year.

Over the past year I have taken on more responsibility in my program, including helping newer students and working part time on campus. I have planned the costs carefully and kept them as low as I can, as the budget shows.

If I receive an award, I will share what I learn with my department, and I will submit the short report the fund asks for within a month of finishing.

Spring 2026	Lab in Psychology	3	B

Cumulative GPA: 3.60

Academic standing: Good standing

Reference 1

I am pleased to recommend applicant APP-012 for the Student Opportunity Fund. I have known the applicant for about two years, as their supervisor.

I have watched the applicant take on more responsibility each semester. Other students go to them for help, and they explain things patiently and clearly.

I am confident the award would be well used, and I am happy to answer any questions.
